

LIST OF TABLES, FIGURES AND BOXES

TABLES

TABLE 2.1	Market Arrangements Compared	47
TABLE 3.1	1992 Hydro Storage and Inflow Volatility Compared	71
TABLE 3.2	Electricity Generation Process Efficiency	71
TABLE 3.3	Distribution Company Ownership	87
TABLE 3.4	Distribution Company Operating and Reliability Statistics 2004... ..	91
TABLE 3.5	Retailer/Generator Market Shares as at January 2003	95
TABLE 5.1	Electricity Prices Before and After ECNZ Separation (\$/MWh).....	149

FIGURES

FIGURE 1.1	Main Electricity Sector Actors in New Zealand.....	23
FIGURE 2.1	Equilibrium Changes with Demand Un/Responsive to Price.....	36
FIGURE 2.2	Price and Quantity Changes in the Short and Long Term	37
FIGURE 2.3	Price Separation Following Loss of Inter-Island HVDC Link	39
FIGURE 2.4	England and Wales Mean Electricity Prices and Costs 1990-2002.....	52
FIGURE 2.1.2	Stoft (2002) Scheme of Market Types.....	57
FIGURE 2.2.1	Coordination on the Waikato and Waitaki River Systems	60
FIGURE 3.1	Primary Energy Supply Shares 2003	65
FIGURE 3.2	Energy Usage by Sector 2003 (%).....	65
FIGURE 3.3	Sector Energy Demand Shares by Energy Type 2003 (PJ)	66
FIGURE 3.4	Schematic of the New Zealand Electricity System.....	67
FIGURE 3.5	10+ MW Generation Capacity 2003 (MW)	68
FIGURE 3.6	Location of Major Generators	69
FIGURE 3.7	Generation Mix 1974-2003 (GWh).....	70
FIGURE 3.8	Mix of Generation Capacity by Major Generator 2003 (MW)	72
FIGURE 3.9	Operation of the Wholesale Electricity Market	73
FIGURE 3.10	Half-Hourly Pricing Process.....	74
FIGURE 3.11	Daily Average Prices (\$/MWh) and Hydro Storage (GWh)	75
FIGURE 3.12	Histograms of Daily Average Prices at Main Centres (\$/MWh).....	78

FIGURE 3.13	National Transmission Grid	79
FIGURE 3.14	Location of Major Supply and Demand	80
FIGURE 3.15	Main Transmission Constraints	81
FIGURE 3.16	HVDC Transfers 2001 and 2002 (GWh/Day).....	81
FIGURE 3.17	Average Transmission Charge (¢/kWh) 1991-2004.....	82
FIGURE 3.18	Loss and Constraint Rentals 1996-2004.....	83
FIGURE 3.19	Customer Interruptions 1991-2004 (System Minutes).....	84
FIGURE 3.20	Total Unplanned System Interruptions 1991-2004	85
FIGURE 3.21	Distribution Companies as at 31 March 2004	88
FIGURE 3.22	Adjusted ROI (%) vs. Line Charge (¢/kWh) for Year to 31 March 2003..	89
FIGURE 3.23	Distribution Company Rationalisation 1995-2003	90
FIGURE 3.24	Nominal Average Line Charges 1994-2005 (¢/kWh).....	91
FIGURE 3.25	Real Average Line Charges 1994-2005 (¢/kWh)	92
FIGURE 3.26	Indexes of System Interruption Measures 1995-2004.....	92
FIGURE 3.27	Generator Market Shares (Years Ended).....	95
FIGURE 3.28	Consumption 1975-2003 (MWh).....	96
FIGURE 3.29	Annual Demand (MWh) and Customer Shares by Class 2003	97
FIGURE 3.30	Average Consumption 1975-2003 (MWh/Customer)	97
FIGURE 3.31	Nominal Average Electricity Prices 1974-2003 (¢/kWh)	98
FIGURE 3.32	Real Average Electricity Prices 1974/1979-2003 (¢/kWh)	98
FIGURE 3.33	Proportion of OECD Countries having Cheaper Electricity than New Zealand 1981-2003.....	100
FIGURE 3.34	Returns to Government from Electricity Industry	100
FIGURE 3.35	Electricity Industry Sales Revenue 1987-2004 (\$m)	102
FIGURE 3.36	Electricity Industry Profits 1987-2003 (\$m).....	103
FIGURE 3.37	Returns to Investors from Electricity Industry	104
FIGURE 3.38	Electricity Industry Real Economic Rate of Return	105
FIGURE 3.39	Transpower's Target and Actual Accounting Rate of Profit.....	105
FIGURE 3.1.1	Generation and Demand Centres of Gravity	113
FIGURE 4.1	US Average Retail Price by State (1996, US¢/kWh).....	123
FIGURE 4.2	US Restructuring in California's Wake (as of February 2003)	125
FIGURE 4.3	European Generation Remains Mostly Concentrated (%)	130
FIGURE 4.4	European Markets Open to Competition (TWh, 2003)	130
FIGURE 5.1	Secondary Hedge Market Trading 1994-1996 (kWh)	142
FIGURE 5.2	The Early "Wholesale Market"	143
FIGURE 5.3	Wholesale Prices under Competing Generation 1996-2004.....	148

FIGURE 5.4	Customers Changing Electricity Supplier 2000-2005.....	153
FIGURE 5.5	Number of Retailers in Line Company Areas.....	154
FIGURE 5.6	Sequence of New Zealand's Structural Electricity Reforms.....	155
FIGURE 5.1.1	Wholesale Prices under Structural Change 1978-2003 (¢/kWh)	164
FIGURE 6.1	Lake Inflows in Major Catchments.....	171
FIGURE 6.2	2001 Electricity Supplied and Hydro Levels (GWh) and Spot Wholesale Prices (\$/GWh)	174
FIGURE 6.3	Hydro Storage Levels – 2003 vs 2001 and Average (GWh).....	178
FIGURE 7.1	Orion Energy Deliveries and Peak Demand 1984-2003.....	194
FIGURE 7.2	Average Weekly Household Expenditure by Income Type.....	201
FIGURE 8.1	Spectrum of Control Options.....	208
FIGURE 8.2	Real Electricity Prices 1945-1993 (1993 ¢/kWh)	210
FIGURE 8.1.1	De/Centralised Control in Socialist and Capitalist Systems	235
FIGURE 9.1	Welfare Loss With Gaming Under Uniform-Price Auctions.....	242
FIGURE 10.1	New Generation 1900-2002 (MW, 10+ MW).....	287

BOXES

BOX 2.1	Link between Electricity and Water Markets	46
BOX 3.1	Energy Intensity Comparisons 1980-2002.....	64
BOX 3.2	Wholesale Electricity Prices and the Opportunity Cost of Water	76
BOX 5.1	Summary of 1989 Electricity Task Force Recommendations.....	140
BOX 5.2	Summary of 1992 WEMS Conclusions.....	145
BOX 5.3	Key WEMDG Recommendations.....	146
BOX 5.4	June 2000 Report of the Electricity Industry Inquiry	159
BOX 7.1	Benefits and Means of Increased Demand-Side Participation.....	198
BOX 8.1	Ministry of Energy under the Electricity Act 1968	211
BOX 8.2	Key Provisions and Principles of the SOE Act 1986	213
BOX 8.3	Electricity Amendment Act 2001 – Key Elements	220
BOX 8.4	Transpower's Evolving Statements of Corporate Intent	227
BOX 9.1	NZEM: One Market or Many?.....	254
BOX 9.2	Some Approaches to Measuring Market Power	259
